

GRANITE EDUCATION FOUNDATION

Granite Education Foundation supports the 68,000 students in the Granite School District. Of these 68,000 students, 65% live at or below poverty and face food insecurities. Granite Education Foundation (GEF) coordinates with school administrators, social workers, counselors and teachers to meet the immediate needs of these students. In an effort to meet these needs, GEF has established food pantries in several schools. The Foundation counts on the generosity of organizations, businesses and individuals to sustain these pantries.

Please contact the Foundation for more detailed lists or instructions. Thank you for your generosity!

Option B: Many of the families we serve are not familiar with canned food items. GEF endeavors to provide items that these families are accustomed to such as flour, rice and dry beans. These items can be packaged together in a standard plastic grocery bag and are ready to hand to families in need. A **Basics Bag** includes a 2 pound bag of flour, 1 pound bag of dry beans and 1 pound bag of rice. These essentials are in high demand and are difficult for the Foundation to keep in supply.

ALL items assembled into GROCERY BAG.
