

Global Talent Volunteer Opportunities

Global Talent is a nonprofit organization that helps college-educated immigrants & refugees start or reclaim their professional careers in the U.S. We help our program participants write resumes, sharpen interviewing skills, and develop professional networks. We also strive to help local businesses expand their talent pool and show them how to reap the benefits of diversity.

How Can You Help?

We depend heavily on our network of volunteers, which spans a variety of industry sectors and job descriptions. Besides helping jobseekers get back into their careers, volunteers also develop their own professional and cross-cultural skills and expand their professional networks.

Ongoing Volunteer Opportunities

Informational Interviewer – allow job seekers in your industry to meet one-on-one with you to learn about your career path and the industry you work in

LinkedIn - review job seekers' LinkedIn page and help them use their resume to build and effectively use a solid profile

Mock Interviewer – conduct practice interviews with job seekers preparing for interviews

Success Stories – meet with Global Talent alumni to help them record their story and Global Talent experience via a [blog post](#)

Special Event Volunteer Opportunities

Career Summit – join for a catered lunch and help current job seekers practice interviewing and networking skills. This event will take place quarterly.

Careers for Change Celebration – Connect with Global Talent participants and alumni, learn more about the talented immigrants and refugees in our state, and eat delicious tapas-style food from around the world at our annual fundraising event.
